

LABOR COMPLIANCE

The function of labor compliance is to follow state labor laws that require certain actions and procedures to be adhered to during the entire progress of public works construction projects. **Murow Development Consultants** can monitor, verify, and compliance with the ever-changing standards of the Department of Industrial Relations and prevailing wage requirements. **Murow Development Consultants** team not only offers experience and knowledge but also has built Labor Law Divisions. **Murow Development Consultants** Labor Compliance Oversight is a service provided to both public and entities involved in the constructing of public infrastructure improvements that are subject to State prevailing wage requirements.

The State Labor Law requires certain actions and procedures to be adhered to during the entire process of the public works construction project. This includes bid administration, submission of Electronic Certified Payroll Reports (eCPRs), and verification of prevailing wage rates for the duration of the project.
